## The Benefits of Membership

Those of us who have been members of Woodmont for a number of years, know very well the benefits of membership. We walk the beach and the trails with our children and our dogs; we get reacquainted with our neighbors and enjoy their cooking at our summer potlucks in a secure and private environment; we take advantage of reserving the plaza to hold our family reunion or special party; and as of this summer, we can once again play tennis and basketball on our newest improvement in Upper Woodmont, while our children enjoy a brand new play area. Many of our members will say that every day is different on their walks along the beach road—a soaring eagle, the barking seals, a beautiful sunset or an approaching storm. We have privacy and security and feel fortunate to be the beneficiaries of living in this special place.

Our dues help protect and preserve our common areas, maintain a board of directors and their committees and provide social events that bring us together as neighbors. By living within the boundaries of the Woodmont neighborhood, you are entitled to be a member. If you have not joined in the past, are new to the neighborhood, or have not been a member for awhile, we invite you to consider membership in the Woodmont Country Club.

### Donations

Many members include additional money to help with current club projects. Your recent generosity enabled the club to add planter boxes, flowers, shrubs and trees at the tennis courts. One goal we would like to achieve is to have water available at the tennis courts. We thank you for any amount you wish to donate to further the club projects.
